

BCS BLACKBOX

THE VERTICAL SAAS ECOSYSTEM THAT IS
TRANSFORMING TRADITIONAL BUSINESSES

1. What is BCS Blackbox?

BCS Blackbox is an ecosystem of vertical SaaS solutions designed to digitize companies quickly, powerfully, and without expensive development. Each “Sub-BCS” is a complete software product specialized in a specific industry, with optimized processes and an AI assistant trained for that sector.

BCS is:

- Fast → Deployment in 30–60 days
- Scalable → New modules without friction
- Cost-Effective → No internal IT required
- Intelligent → Sector-pretrained AI
- Plug & Play → Ready to use

2. The market problem

Businesses today face three major barriers:

- ✗ 1. Generic software that doesn't adapt
Solutions like SAP, Zoho, or Salesforce are complex, expensive, and not built for each industry.
- ✗ 2. Custom development is out of reach
Months of waiting, high costs, and total dependency on the developer.
- ✗ 3. Lack of processes and digitalization

Most companies still operate with Excel, paper, or very limited systems. BCS Blackbox was designed to eliminate these barriers.

3. The Solution: A SaaS Ecosystem Ready for Every Industry

BCS Blackbox offers vertical Sub-BCS solutions, each designed for a specific sector:

-  MedCare Pro – Clinics and hospitals
 -  SmartChef – Restaurants and delivery
 -  FleetCore – Fishing and maritime fleets
 -  TravelCore – Hotels and tourism
 -  PetCore – Veterinary clinics
 -  LawFlow – Law firms
 -  RetailFlow – Retail and stores
 -  FactoryCore – Manufacturing
 -  AgroCore – Livestock and agriculture
 -  TripManager – Travel agencies
- ...and more than 15 additional Sub-BCS systems.

Each one includes:

- Industry-specific processes
- Specialized dashboards
- Automations
- AI assistant trained for the sector
- Key integrations
- Immediate scalability

4. The Heart of the System: Industry-Specialized AI

Each Sub-BCS includes an AI assistant trained with:

- Real industry processes
- Internal documentation
- Standard use cases
- Best practices
- The client's historical data (optional)

Capabilities:

- Automatic reports
- Form filling
- Smart reminders
- Predictions and alerts
- Customer support
- Automation of repetitive tasks

Example:

- “Chef AI” predicts demand in restaurants.
- “Nurse AI” manages protocols in clinics.
- “FirstMate AI” generates maritime logs by voice.

5. Benefits for the End Client

✓ Fast implementation

30–60 days to be fully operational

✓ Intelligent technology

AI integrated from day one

✓ Zero learning curve

Simple interfaces and guided workflows

✓ Better decision-making

Clear reports and useful predictions

✓ Cost reduction

Automates processes and eliminates manual tasks

✓ No IT required

CodeCodix handles support, hosting, and maintenance

6. The Opportunity for the Partner

🔪 50% monthly commission for every client

No time limit.

No reduction.

Recurring revenue.

🎯 Your role as a partner:

- Connect clients
- Present the solution
- Assist during the first weeks

🔧 CodeCodix's role:

- Implementation
- Technical support
- Infrastructure
- Updates
- AI modules

You sell.

We build and operate.

The profit is shared.

7. Real Examples of Impact

Dental Clinic

- 40% fewer missed appointments
- 25% more treatments
- 180% ROI
- Partner commission: \$600/month

Restaurant Chain

- 30% less waste
- 20% better purchase control
- 320% ROI
- Partner commission: \$1,200/month

Fishing Fleet

- 100% digital logbooks
- 15% less fuel consumption
- Zero fines
- Partner commission: \$2,250/month

8. Why Is BCS Blackbox Different?

- It's not software.
- It's an extensible ecosystem.
- You're not competing with giants.
- You're targeting the forgotten market:
 - companies that need something simple, fast, and powerful.
- You don't need to code.
- Everything is pre-built.
- You don't need a technical team.
- We operate the entire backend.
- You're not selling features.
- You're selling business transformation.

9. Partner Growth Plan

First 30 days:

- Training
- Documentation
- First demos
- 1-2 closings

60-90 days:

- 3-6 active clients
- \$1,500-\$3,000/month in revenue

6-12 months:

- 10-20 active clients
- \$5,000-\$10,000/month in revenue
- Territory opportunities
- Equity eligibility based on performance

10. Call to action

Join the vertical SaaS revolution.

BCS Blackbox is transforming the way businesses digitalize.

As a partner, you can:

- Earn recurring revenue
- Scale without limits
- Help modernize real companies
- Be part of a growing ecosystem
